ACCESSIBILITY

CHECK OUT THE NEW RTP!

Whatever your industry, if your operations include loosening or tightening heavy duty bolts, Atlas Copco's slim, lightweight RTP pneumatic nutrunner can help increase your productivity.

EASY ON THE OPERATOR

The light weight of the RTP nutrunner will surprise you, yet its high speed motor has the power you need to tighten big bolts. A robust, lightweight reaction bar absorbs the torque. Noise and vibration levels are lower than in traditional impact wrenches.

EXCELLENT ACCESSIBILITY, HIGH ACCURACY

Among the smallest on the market, the RTP's slim gearpack gives you effortless access to bolts in cramped spaces. Tightening accuracy and repeatability are high.

FLEXIBLE AND SAFE

Plug & play! Simply connect the RTP to your air line and start working with it. The torque output of the RTP is adjusted with an Atlas Copco FRL air pressure unit, helping to prolong the lifetime and

torque accuracy of the tool. The tool's exchangeable drive simplifies maintenance and cuts repair costs.

A RELIABLE PARTNER FOR YOUR OPERATION

A handy tool for flange-related and other bolting applications in the Oil & Gas, Power Generation, and Wind Energy segments, the RTP nutrunner will also be a valuable asset for reman (remanufacturing), maintenance, repair and overhaul operations in the Mining and Offroad segments.

RTP NUTRUNNER KIT
