BALL VALVES

High pressure ball valves designed for liquid and gas flow control
From 1034 to 1378 bar (15000 to 20000 psi)

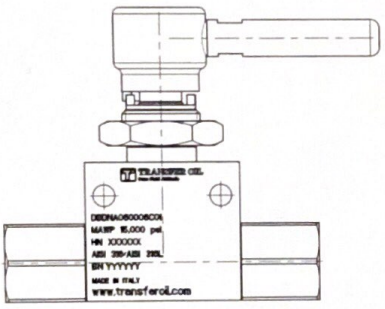
Temperature rangin
from -73°C to +315°C
(-100°F to +600°F)

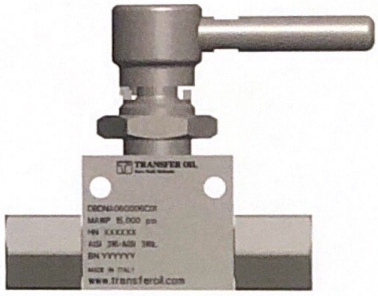
Connection available from 1/4'' to 1'' NPT or coned and threaded tube

Peek ball seals

Cold-worked standard
materials SS 316L

Bi-directional flow capabilities

Viton O-ring




Panel mounting
